Mitosis Cut Out Activity

Instructions

On the back of this sheet is a diagram with eleven boxes. Each box will be filled with a picture from the attached sheet. When completed, it will show the correct order of interphase, the stages of mitosis, and cytokinesis. To do this:

1. Cut out each cell or cell pairs. There are 11 cut-outs.
2. Put the cut out pieces into the correct order. Don’t tape or glue them to the sheet until you check your answers.
3. After you check your answers, tape/glue them into the correct spot on the back of this sheet.

Use your textbook (61-64) to assist you if needed.
Cut out the following and place them in the correct order on the previous page. All images belong to sciencegeek.net.
