Test Preparation Question

Answer the following question or respond to the statement. Remember to be as detailed as possible. You answer should reflect your understanding, be well written (this includes grammar, punctuation, and spelling), and be comprehensive. A well-written response is the key to doing well on the test!

TPQ2: Scientists study their world by making observations and inferences. Explain what an observation and inference are. Then, define Ockham's Razor and explain how it is used.
