Test Preparation Question

Answer the following question or respond to the statement. Remember to be as detailed as possible. You answer should reflect your understanding, be well written (this includes grammar, punctuation, and spelling), and be comprehensive. A well-written response is the key to doing well on the test!

TPQ3: Almost everything in the world is made of atoms. Explain what atoms are and what they are made of (their particles). Then, explain what an ion is and how it is formed.
