## Cell Organelles & Parts Flash Cards

You are to make a flash card for each organelle and cell part that we have learned about. Use pages 24-31 in your book for information on each of the cell organelles and parts and for images of what each looks like. You may also use your notes and the worksheet you completed on Wednesday in class.

### How to Make Your Cards

1. On one side draw a picture of the part or organelle.
2. On the other side write the:
  - a. Name
  - b. It's function(s)
  - c. Where it is found (animal cell, plant cell, bacterial cell, all eukaryotic cells, only prokaryotic cells, etc.)
3. Do this for all organelles and cell parts. Listed below are all of the organelles and parts that you should have.

### Organelles and Parts

\_\_\_\_\_ Cell Wall

\_\_\_\_\_ Mitochondria

\_\_\_\_\_ Cell Membrane

\_\_\_\_\_ Endoplasmic Reticulum

\_\_\_\_\_ Nucleus

\_\_\_\_\_ Ribosomes

\_\_\_\_\_ Nuclear Membrane

\_\_\_\_\_ Golgi Bodies

\_\_\_\_\_ Chromatin

\_\_\_\_\_ Chloroplasts

\_\_\_\_\_ Nucleolus

\_\_\_\_\_ Vacuoles

\_\_\_\_\_ Cytoplasm/Cytosol

\_\_\_\_\_ Lysosome
