

UNIT
1LESSON
1.1*Lab Safety Scenarios***Lab Safety Scenarios**

You will read six safety situations. Discuss with your group if it is safe or unsafe. If it is safe, explain why it is a safe situation. If it is unsafe, explain why it is an unsafe situation. Be sure to record your answers in the correct spot. Use full and complete sentences!

Scenario 1: Thirsty Gina

Is what Gina did safe or unsafe? Why?

Scenario 2: Jamal and Instructions

Is what Jamal did safe or unsafe? Why?

Scenario 3: Fashionable Anna

Is what Anna did safe or unsafe? Why?

Scenario 4: Mike and Evan

Is what Mike and Evan did safe or unsafe? Why?

Scenario 5: Lindsey the Chemist

Is what Lindsey did safe or unsafe? Why?

Scenario 6: Clean Steven

Is what Steven did safe or unsafe? Why?

Review and Reflect

At the beginning of this lesson you were given three questions that you should be able to answer. Review those questions below.

Questions you should be able to answer:

1. What are the basic safety rules?
2. Where is the safety equipment and how is it used?
3. What do I do in an emergency?

Take a moment to *think* your answer. Then, rate your ability to answer the question using the following scale:

- 3 - I feel very comfortable answering this question. If this were on a test, I know I would get an "A" for my answer!
- 2 - I feel "okay" answering this question. I need to review this packet and our activities to give a better answer.
- 1 - I do not know how to answer this question.
